CATTLE CHUTE AND HEADGATES

FARM BUILDING
PLAN NO. 5778
(1 SHEET)

TOP VIEW

This chute has a catwalk and a small service gate on one side. Cattle may be let out through the 4-foot gates on either side. Three different types of headgates are shown on the working drawings. The two not illustrated are lever operated, and one has a roof over the headgate and chute.

A more complete plan may be obtained through your county agent or from the Extension agricultural engineer at most State agricultural colleges. There is usually a small charge.

ORDER PLAN NO. 5778, CATTLE HOLDING
CHUTE AND HEADGATES

If working drawings of this plan are not available in your State, write to the U. S. Department of Agriculture, Agricultural Engineering Research Division, Plant Industry Station, Beltsville, Md. The U. S. Department of Agriculture does not distribute drawings, but will direct you to a State that does distribute them.
